

Tegar Hardiansyah Prasetyo

Full-stack developer and 3D artist

Bogor, Indonesia (GMT+7) me.ryzennn@gmail.com 0x5zen.dev github.com/meryzennn behance.net/ryzen1

PROFILE

3D artist, game developer and full-stack developer with a Computer Science degree. I build web apps in PHP, Python and TypeScript, and make stylized 3D artwork, character models, animation and 3D video in Blender, so I can take an idea from the visuals to a working product. I also create and sell Solana NFTs.

EXPERIENCE

Web Developer Intern · Kementerian Kelautan dan Perikanan (KKP), BRBIH Depok · Sep 2025 – Dec 2025

- Built web features in PHP (CodeIgniter 4) during an on-site internship, on an AC monitoring web app for technicians and staff.
- Made it easier to log AC cleaning and repairs, track each AC unit by QR code and record the monthly service expenses, with an admin dashboard and Excel exports.
- Worked as the web designer on the project and produced videography content next to the web work.

3D Animator (freelance) · Sayingth!ngs Hong Kong · Sep 2025

- Built the 3D models for an animated ad in Blender, on my own, within one week.
- Delivered the cartoon-style 3D animation for the ad within two weeks.

NFT artist · Solana Exchange Art · paras.id · mallow.art · DRiP

- Create and sell 3D art as NFTs on Exchange Art, paras.id, mallow.art and DRiP.

PROJECTS

ZenPnL zenpnl.0x5zen.dev · Next.js, TypeScript
Charts, a PnL calculator and market news for IDX stocks; works out the net after buy fee, sell fee and sell tax.

SnapFins snapfins.0x5zen.dev · TypeScript, Google Gemini
Personal finance tracker with an AI receipt scanner and one dashboard for crypto, gold and stocks.

ZenRugCheck rugcheck.0x5zen.dev · TypeScript, Solana
Checks a Solana token for rug-pull risk: mint and freeze authority, liquidity and LP burn, holder distribution.

Drift drift.0x5zen.dev · Next.js, Solana
Decentralized social app with wallet sign-in, posts, messages, a leaderboard and SOL tips.
